## **ORISTA** SERIES (150)

An LPG stove is an essential appliance in modern kitchens, known for its reliability, efficiency, and convenience. Powered by liquefied petroleum gas, it provides an immediate, adjustable flame that makes cooking precise and versatile, perfect for anything from quick meals to elaborate dishes. Unlike electric stoves, an LPG stove works even during power outages, ensuring consistent cooking anytime. Safety features, such as flame failure protection and easy-to-use knobs, make it secure for daily use. With its sleek designs and varying burner options, an LPG stove is a blend of tradition and technology, catering to both amateur cooks and seasoned chefs.

*"Flame Your Passion,  
Perfect Every Meal."*

IS : 4246
